

### WHAT IS TECH PREP?

Tech Prep identifies high school courses comparable to Mt. San Jacinto College courses and creates articulation agreements between them. These agreements allow students at their high schools who receive a B or better in a Tech Prep course and on the final to earn college credit at Mt. San Jacinto College without paying any tuition or fees.

Students complete an application while in their articulated high school class (necessary for receiving their college credit). Credit will be applied to students' Mt. San Jacinto College transcript one semester after the high school course has been completed.

MSJC provides guidance for students, parents and high school staff regarding the Mt. San Jacinto College procedures for the college and secondary articulation process.

# CHILD Development

## CHILD DEVELOPMENT THROUGH MSJC

The Child Development and Education Department provides an exemplary program that supports the personal and professional development of lifelong learners. Learning opportunities occur in a research-based, inclusive, and responsive environment that integrates a variety of programs and services.

The More You Learn the More You Earn

# CHILD DEVELOPMENT

## CHILD DEVELOPMENT AND EDUCATION

The Child Development and Education Program provides an educational and practical foundation for students interested in working with children from infancy through adolescence. In addition to theoretical principles, the curriculum offers practical skills and on-site training that will prepare students for employment in the field of Education.

The program leads to a certificate in Child Development and Education and/or an Associate of Science degree. The program also fulfills the required child development course work for the state issued Child Development Permit. Information regarding this permit and/or the Child Development and Education Certificate is available from the CDE Department. All course work leading to a certificate or degree must be completed with a minimum grade of "C" (2.0) or better.

## A.S. IN CHILD DEVELOPMENT AND EDUCATION (43 UNITS)

An Associate of Science (AS) degree may be earned by completing the 43 units required for the MSJC Child Development and Education Certificate, and all MSJC General Education Option A requirements.

### REQUIRED COURSES (27 UNITS)

CDE-101*	PRINCIPLES OF EARLY CHILDHOOD EDUCATION	3 UNITS
CDE-102	LANGUAGE AND LITERACY EXPERIENCES FOR YOUNG CHILDREN	3 UNITS
CDE-103*	APPROPRIATE CURRICULUM FOR YOUNG CHILDREN	3 UNITS

## CDE 101: PRINCIPLES OF EARLY CHILDHOOD

This class is the first in a series of Child Development and Education classes. Through observation students will become familiar with different types of educational settings serving children aged birth to eight years. Special emphasis will be given to staff roles, appropriate learning environments and curricula, home-school partnerships, professional ethics and career options.

\* Transferable: CSU Credit

\* Recommended Prerequisite: **NONE**

\* Units: 3
